FOR LINE 18b OF FORM 3X	

A diagram of a rectangular frame structure. It consists of 10 vertical bars and 3 horizontal bars. The top horizontal bar is at the top, and the bottom horizontal bar is at the bottom. There are 10 vertical bars spaced evenly between them. The frame is shown in a perspective view, with the bars having a 3D appearance.

A diagram of a rectangular frame structure. It consists of 10 vertical bars and 3 horizontal bars. The top and bottom horizontal bars are continuous across the entire width. There are 10 vertical bars, with 5 on each side. The second horizontal bar from the top is divided into 9 segments by 8 vertical bars. The third horizontal bar from the top is divided into 9 segments by 8 vertical bars. The 10th vertical bar is on the right side, aligned with the 9th segment of the second and third horizontal bars.

A diagram of a rectangular frame structure. It consists of 10 vertical bars and 3 horizontal bars. The top and bottom horizontal bars are continuous across the entire width. There are 10 vertical bars, with the first and last bars being continuous from top to bottom. Between the first and last vertical bars, there are 8 vertical bars that are connected to the top horizontal bar but have a gap at the bottom, where they are connected to a third horizontal bar. This third horizontal bar is positioned below the bottom horizontal bar and is supported by three vertical columns.

A diagram of a rectangular frame structure. It consists of two horizontal bars at the top and bottom, and ten vertical bars connecting them. The vertical bars are evenly spaced along the length of the frame.
